

Informe. Construction of Wood house with 1 bedroom, 1 living, cement floor and kitchen.
For: La familia Freddy Flores y Rosa
De. Samuel Saccsara y Rosa Vallejo de Saccsara

Thanks be to God for blessing this family that has lived in the shadow of poverty and involved in alcohol and drugs. La señora Rosa seeing her family threatened by this state prayed to see a change in their situation.

She told me that she always dreamed of having a cement floor as did her neighbors. Now she is so happy and praises and thanks the Lord for answering her prayers.

The name of the Lord was glorified when the neighbors saw the house finished and how God answered Rosa's prayers that they all gave thanks to the Lord and listened as we shared the word of God with them all.

Great is the Lord God of Abraham, the God who is ruler of all creation. Seeing His hand in all this they prayed and promised to follow the Lord and serve Him.

Then we prayed and gave thanks to God for Mark and his family and for the money they sent to build this beautiful home. Now they can live in dignity and even celebrate Christmas in the house with their family.

There are 7 people in this family, of their 5 sons, only 2 live with them now. We bought a polo shirt for Araceli as you can see in the photo. Then we prayed for Juan Carlos who is 17 and has been evolved in sniffing glue and drinking. Araceli is at an age where she can easily get into trouble because her parents had lost control over their children. Pray for them and God bless.

Pastor. Samuel Saccsara Y.
